

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ years of hands-on experience building production-ready web applications using React.js and Node.js. Experienced in integrating AI-driven features such as chatbots and automation using Python and FastAPI. Strong in API integration and cross-team collaboration.

SKILLS

Front-end:

HTML, JavaScript (ES6+), React.js, Next.js, AngularJS, CSS, Tailwind CSS

Back-end:

Node.js, Express.js, REST APIs, Python, FastAPI.

DATABASES:

MongoDB, SQL.

EDUCATION

Bachelor Of Computer Application

Goa University – Dnyanprassarak Mandal's College
Year of Completion: 2023

Higher Secondary School Certificate (HSSC)

Dnyanprassarak Higher Secondary School
Year of Completion: 2020

Secondary School Certificate (SSC)

Dnyanprassarak Vidyalaya, Goa Board
Year of Completion: 2018

EXPERIENCE

React-Node.js Intern

Gytworkz – November 21, 2023 – April 8, 2024

Front-End Developer contributing to production-level projects, focusing on feature development and maintenance of the company's main job portal alongside the core engineering team.

Key Projects & Contributions

AI-Powered Medical Motion Tracking

- Integrated XtraVision.io for real-time skeletal tracking, reducing assessment time by 30%.
- Developed a secure video interface using React.js, WebRTC, and Twilio, enhancing session efficiency by 25%.
- Built backend services in Node.js/Express.js to process video data and maintain logs for the Interview Slot Booking system.
- Designed and implemented a calendar UI with React.js and Day.js, reducing booking errors by 35% and streamlining scheduling.

- Project: Live Video Calling Feature – Role: Frontend Developer
 - Engineered a WebRTC-based video call system with Twilio token authentication and Express.js backend, enabling secure, real-time communication.
- Project: AI-Based Resume Processing – Role: Full stack Developer
 - Integrated an AI resume parser with React.js and Multer, extracting skills and storing results in MongoDB.
 - Automated resume screening, reducing manual effort by 60%.
- Project: Job Portal – Role: Frontend Developer
 - Developed frontend components with React.js, managed state using Redux Thunk, and ensured smooth Next.js SSR integration.
 - Styled UI with Tailwind CSS, validated forms using Formik/Yup, and supported Next.js SSR integration.
 - Technologies: React.js, AngularJS, Node.js, Express.js, MongoDB, Redux, Redux Thunk, WebRTC, Twilio, Formik, Yup, Tailwind CSS, Multer, Next.js

SDE-1 Full-stack developer

Insdr Enterprise Solutions– March 17, 2025 – present

- Project: Lead Generation Platform – Role: Full stack Developer
- Engineered responsive web pages using Next.js, React.js, and Tailwind CSS, enhancing performance and user experience.
- Automated lead processing by developing Node.js backend services, minimizing manual effort by 40%
- Extracted and analyzed HTML-embedded JSON data to generate actionable marketing insights
- Deployed an AI-powered chatbot using Python, FastAPI, and LangGraph, automating lead qualification and improving response times and engagement.
- Technologies: React.js, Next.js, Tailwind CSS, Node.js, Python, FastAPI, LangGraph

Project: Insdr –Real Estate Intelligence Dashboard –Role: Frontend Developer

- Developed responsive dashboards and client interfaces using React.js, Tailwind CSS, and Next.js, delivering real-time AI-driven insights.
- Integrated interactive maps and visualizations via APIs to display property locations, leads, and analytics, improving data accessibility and decision-making
- Connected frontend with Node.js and Python APIs, enabling seamless interaction with backend AI and data workflows.
- Collaborated with backend and AI teams to design a scalable, maintainable frontend architecture, supporting multi-city and multi-vertical expansion.

Technologies: React.js, Tailwind CSS, Next.js, WebRTC, Twilio, API Integration, Map APIs
